High-Performance Adhesion Solutions – From Practical to Complex.

Product Selection

Our comprehensive line of packaging products—from tapes to films and beyond—enables us to identify the right product for your application.

Local Inventory

Eight distribution centers and stocking program capabilities ensure customers have the products and services they need when and where they need them.

Expertise & Value

Whether you need product development or private labeling, count on our materials knowledge and applications expertise to bring you the right solution.

TAPE FABRICATING AND PRINTING

Tape Manufacturing

- Specially formulated tape manufacturing
- Private labeling capabilities

Tape Converting

- Can convert adhesive tape into virtually any width, shape, or size with lathe slitting, slitting rewinding, logging, and rotary die cutting.

Printing

- Top side and under-surface/lock print available (Up to 4 colors)
- Can print on BOPP backing, water-based acrylic and hotmelt adhesive

FILM CONVERTING & PRINTING

Film Converting

Slitting and rewinding of machine- and hand-length poly films and BOPP from 1" – 60" wide with multiple inside diameter options

Flexographic Printing

- 8 colors, 4 color process
- Solvent or water-based inks
- 39" print width, 41" web width
- Up to 600g gauge thickness
- Substrates include polyethylene (stretch film, LDPE, HDPE, shrink bundling), BOPP, paper

OTHER BROAD CAPABILITIES

Multi-Layer Stretch Film (For Heavy Applications Up to 600 Gauge)

Rapid Prototyping • Laminating • Automatic Band/Chop Sawing

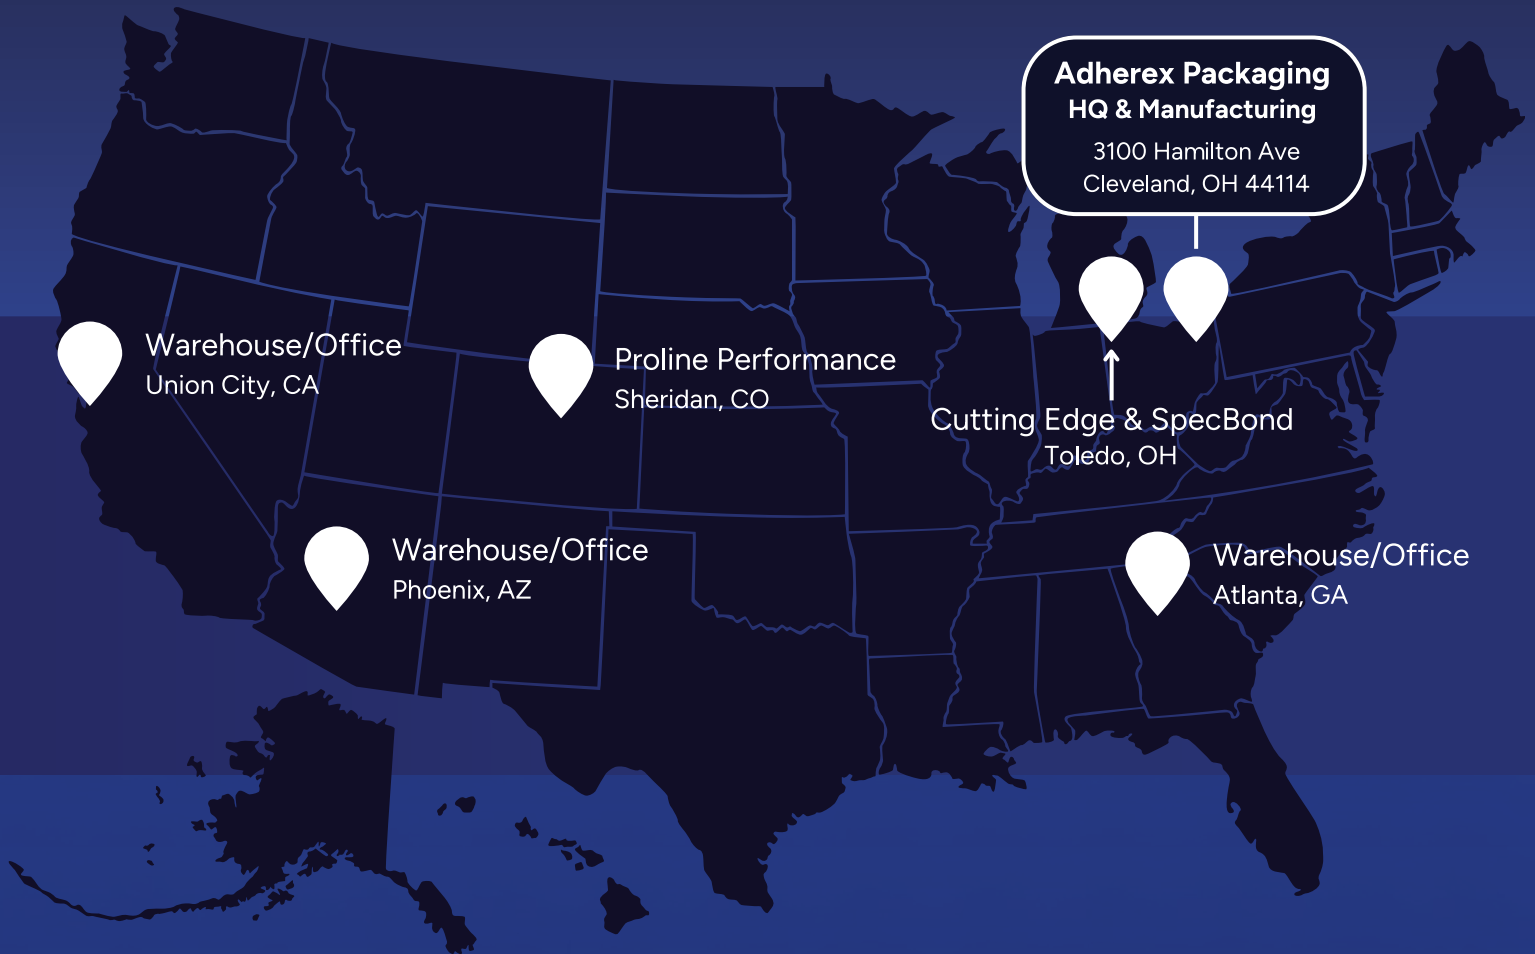

Flat Bed Die-Cutting, Pouch Machine, and Guillotine Cutting for One-Way Packaging

Waterjet Cutting, Roller Press, and Sonic Welding for Returnable Packaging
